LII Federal Lease

The GF Flexlease Program provides Federal Government Agencies with flexible and convenient payment terms for GF Office Furniture and related products. Today, about one-third (over \$100 billion dollars!) of all capital equipment is acquired on a leased basis, and with over 10 years of providing Federal financing services, the GF Flexlease Program is ready to provide your Federal Agency with a term and payment structure that suits your needs.

Advantages of Leasing for FEDERAL GOVERNMENT ENTITIES

Leasing is Flexible. Leasing can be tailored to meet the needs within your budget and your specific transaction. With flexible buy-out options, variable payment levels, and no down payment required, leasing terms are maximized to compliment your budgetary requirements.

Leasing Helps Budget Management and Conserves Surplus. Leasing meets annual appropriation needs of most Federal budgets. Surplus is conserved because a smaller portion of your budget is required for the equipment you need.

Leasing Rates Are Competitive. With over 10 years of Federal leasing experience, the GF Flexlease program can provide you with the lowest possible rates. This assures your Federal Agency of a competitive, cost effective means of financing.

Leasing is Convenient. With flexible payment schedules availability of Electronic Fund Transfers (EFT), leasing is the most convenient form of financing available. Simple paperwork and documentation make leasing the fastest growing equipment financing tool today.

Leasing with a Purchase Order. Leasing payments are merely added language to a purchase order. From there, the GF Flexlease program will do the rest. No administrative headaches!

Leasing Provides for Technology Upgrades. A lease may be structured to provide for future upgrades in equipment. This can protect you from technology obsolescence, as well as meeting the needs of future operational changes.
